## Protect Your Prime Packages with Key by Amazon

With more people shopping online, the possibility of having your packages stolen or damaged by weather is high. Luckily, Amazon Prime and myQ have partnered to create an easy, safe solution: Key by Amazon.

This free service for Prime members provides Amazon drivers with a one-time code to your garage. The driver will open the door, place your packages inside the garage, then wait for the door to shut to ensure your packages are secure. Never worry about porch pirates or weather-damaged packages again! Drivers access the code, then open and close your garage with myQ technology.

myQ for garage doors is not just for when you're getting packages delivered. You can use the app to open or close the garage door from anywhere, so you never have to worry about leaving your home vulnerable. With the real-time alerts delivered through the app, you can secure your home even if someone else in the household isn't so diligent.
