Garage Doors Done Right!™

# Your perfect garage door awaits

Find the perfect door for your style (and your budget)!

As the days get shorter and colder, now is the perfect time to vamp up your home with a new garage door. It can be installed in an afternoon and is an easy, affordable way to instantly boost your home's curb appeal.

A new garage door is also a great way to get more out of your home if, and when, you decide to sell. Almost 94% of the costs are recouped due to the boost in resale value.\* And unlike other renovation projects that can take months to complete, your new garage door can be installed in an afternoon with minimal hassle.

With so many styles, colors, and materials to choose from, there's a door to suit every home and any budget. Best of all, we can help you navigate through the many options and help you design the new garage door of your dreams. We have expert Door Design Specialists in every market to help you find the perfect door.

It's a good idea to consider insulation in your garage as the weather cools, too. Many garage doors are not properly insulated, which can result in a freezing-cold or unbearably hot garage.

Now available in more than 500 colors from **SHERWIN-WILLIAMS**.

## We Do it Right – Guaranteed!

We're so confident that your new garage door will work flawlessly, every door we install is backed by our *Precision Done Right! Guarantee*. It's the industry's leading warranty, and it guarantees that any defect in workmanship will be repaired free of charge for up to five years.

.....

## Pay NOTHING until 2024!

With no money down and zero interest Worry Free Financing\*\*, it's more affordable than ever to build on the value of your investment. **Now pay nothing until 2024!**  
Call today for a free consultation and estimate!

## Security begins with a smart garage

With the prevalence of smart technology everywhere in the home now, there's no reason your garage should be left behind!

Many garage door openers are now equipped with WiFi so you can open and close your door with a few taps on your smartphone. You can simply download an app while your new opener is being installed and rest easy knowing the status of your door 24/7 from anywhere in the world. With the real-time alerts delivered through the app, you can secure your home even if someone else in the household isn't so diligent. The app can open or close the garage door from anywhere, so you never have to worry about leaving your home, family, or possessions vulnerable.

For the ultimate peace of mind, in-garage cameras can also be installed so you can always be sure of what's going on in the garage — from the other side of your house or the other side of the world. You can check in on kids playing, contractors working, or even investigate that odd noise without ever setting foot in the garage.

**Garage technology for  
your peace of mind**  
.....

The innovation doesn't stop there. There are ways to have packages delivered right into your garage and to have door data sent to your garage door technician if there's ever a problem. The possibilities for a smart garage are truly endless!

## Garage doors don't like cold weather.

Prep your door for the changing seasons

Whether you live in a winter wonderland or a place that gets the occasional cold snap, your garage door can balk at cold weather. Fortunately, preventative maintenance can ensure your door will keep working smoothly in any weather.

However, there are times when garage doors refuse to work thanks to bitter cold. We're prepared for that sort of thing — Precision offers 24/7 emergency service so you can get your garage door fixed quickly. We also offer the industry's leading warranty, the *Precision Done Right! Guarantee*, which covers all our technicians' work for 5 years.

One way to get ahead of a total breakdown in the cold is to take advantage of [Precision's Garage Door System Restore](#), especially if your door is older. Instead of incurring the cost to replace your door, our trained technicians will service the parts behind the door to keep it running smoothly for another 10-15 years.
